The Road to Resilience

Introduction to trauma, its impact and trauma-informed environments

Trauma has a significant impact on children and adults. Trauma-informed environments encourage resilience in children, caregivers and providers.

Contact Chicago Children’s Advocacy Center to schedule a training for your workplace or community site on:

- Defining trauma and its prevalence in society
- Understanding the impact of trauma on individuals and communities
- Elements of resilience and trauma-informed environments
- How to support children, families and yourself

This training lasts up to three hours and can be done at your location. CE hours are available for psychologists, social workers, counselors and early intervention providers.

Request this training for your workplace, community site or other group now:

ChicagoCAC.org/request

There are fees associated with this training.
